About me

As an experienced developer with unparalleled speed and debugging abilities, I've been working and am faster than anyone you have worked with. I am constantly improving my craft and surroundings while making everyone better around me.

Experience

Company: Southleft - July 2020 - Present

Position: Senior Front End Developer
Accomplishments
I was really able to hone my skill in experimenting in new concepts and quickly adjust course while putting them into practice. I also grasped a better understanding of monitoring and improving frontend performance.

Company: Advisor Innovation Labs (startup) - March 2017 -July 2020

Position: Senior Front End Developer
Accomplishments
I collaborated effectively with project managers, developers and clients, I was able to participate in team code review process and gave proficient feedback to help the other mid and junior developers develop their careers

Company: Bluecadet - October 2014 -March 2017

Position: Front End Developer
Accomplishments
Worked with all sorts of technology to create award winning websites. Used many different frameworks to build websites and browser based touch screens.

Company: SuperFriendly - December 2013 -October 2014

Position: Developer
Accomplishments
I was mission-driven to learn the ins and outs of web development. Jumping in multiple projects and quickly fit into an existing team of developer

Skills
